LGB International Terminal Vote Synopsis

Following the January 24th airport vote, past and present city leaders shared their opinions on what occurred at the City Council meeting. On January 27th, the Press Telegram published an opinion article written by former Mayor Bob Foster. He believes the Long Beach City Council made the right choice on January 24th in rejecting JetBlue's international service at the Long Beach Airport. You can read the entire article at this [link](#). On January 31st, the Press Telegram published a second opinion article, this time written by current the Fifth District Councilwoman Stacy Mungo. She mentioned that there were many factors to consider when deciding how to vote, including the community input and financial impact to our local economy. JetBlue Fined a Record High \$144,000 for January 2017

We received the JetBlue late-night operations and violations for the first month of 2017. All of the data is preliminary pending the final verification of times, noise levels and unanticipated delay status. JetBlue conducted 31 operations after 11 PM. 27 of these operations resulted in Consent Decree violations/fines. For the month of January, the first six Consent Decree violations resulted in a fine of \$3,000 each, and of the 21 subsequent Consent Decree violations resulted in a fine of \$6,000 each. The first six Consent Decree violations are \$3,000 each at the beginning of each quarter. Consent Decree violations in February and March will result in JetBlue incurring a \$6,000 fine per violations. JetBlue conducted a total of 39

jetBlue

operations in between 10 PM and 11PM. All of these operations qualified as unanticipated delays and the delays were primarily due to mechanical problems with aircraft and poor weather conditions. Thank you to Ryan McMullan, Airport Operation Specialist - Noise Analyst II, for providing our office with this information.
